The Catholic community in the United States is celebrating Catholic Schools Week, beginning Sunday January 31, 2010. What does Catholic education offer our children?

1. Relationships with priests and religious
2. Formation in an environment that teaches and lives according to the commandments of God
3. Education of the mind while cultivating holiness of life through the prayer and sacraments of the Church
4. Participation in a community of like-minded friends and families
5. Opportunities to serve God and His Church.

It is a joy to share in the Church's work of education. Happy Catholic Schools week to the parents, students, teachers, staff and administrators of Hastings Catholic Schools!
